## Resource Recovery

- Resource Recovery started a Residential Food Waste Collection Pilot for curbside collection service designed to evaluate the feasibility of collecting food waste curbside. Food waste is being collected separately from regular trash in a special container at approximately 400 homes throughout the City. After collection, food waste is converted into compost at a regional facility.

## Public Works

- Major street resurfacing is well underway and night paving operations began Sunday, May 8, and will continue through June. Nightly milling and paving operations are scheduled between 8 p.m. to 5 a.m., Sunday through Thursday. The first section of work began on Duke Street, between N. Quaker Lane and S. Jordan Street.

## Traffic Operations

- Traffic Operations has begun working to replace spliced cables at intersections throughout the City. These splices often cause lights to go into flash during periods of wet weather. To date 4 intersections have been completed, approximately 90 remain.
